PROFESSIONAL EXPERIENCE

FDE (Contract) @ Holani

June 2026 – Present

Mumbai, India

- Architecting and building a scalable AI ecosystem from scratch.
- Integrating robust cloud infrastructure to support advanced AI models and data pipelines.

Solace Consultant @ Solace

Feb 2026 – April 2026

Mumbai, India

- Managed enterprise-level platform monitoring and highly available infrastructure operations.
- Engineered automated daily operational routines using Bash scripting, Docker, and modern CI/CD tools.
- Implemented comprehensive monitoring systems to systematically improve platform reliability.
- Collaborated with engineering teams to integrate resilient deployment patterns, mapping architectures via Excalidraw and Miro.

DevOps Engineer @ IESoftek

April 2024 – Feb 2026

Mumbai, India

- Directed AWS cloud infrastructure operations and governed scalable, reliable CI/CD pipelines.
- Designed automated monitoring routines with Datadog and shell scripts, reducing manual workloads by 40%.
- Architected and maintained containerized application deployments using Docker, Kubernetes, and Helm charts.
- Engineered core AWS infrastructure (EC2, Lambda, IAM, VPC) and fast delivery checks with Jenkins/GitHub Actions.
- Drove infrastructure reliability and cost-focused cloud resource pruning using AWS CLI task automation.
- Governed system security configurations and access boundaries using custom IAM policies.

Mumbai, India

- Managed multi-cloud hosting configurations and infrastructure migrations on AWS and Azure.
- Provisioned AWS serverless environments and designed secure VPCs, subnets, and firewall rules.
- Formulated disaster recovery policies and optimized development-to-production turnaround times by 35%.
- Directed active operational support for Linux environments, focusing on server tuning and system security.

PROJECTS & HACKATHONS

Yoga Plus -- IIT Bombay EdTech Hackathon (7th Rank)

- Developed AI-powered applications using Flutter, Firebase, and TensorFlow Lite for real-time posture detection.
- Engineered scalable integrations connecting frontend clients with serverless cloud-hosted AI APIs.

Agrifarm -- Apscript Hackathon (3rd Rank)

- Deployed a digital agriculture marketplace tracking real-world metrics. Project: devfolio.co/projects/agrifarm-a17f

CERTIFICATIONS

- AWS Certified badges: Compute Badge, Storage Badge, Serverless Badge
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Solace Certified: Solace Certified Developer Practitioner
